

COVID-19 Understood.

CorrTech has you covered.

CorrTech is operating within the COVID 19 recommended guidelines in order to safely provide services to our clients. Our goal is to continue to provide our clients with essential services during this time and are continuously reviewing and implementing high level procedures to ensure the safety of our clients and employees.

- Employee self-monitoring daily
- No 'crew' transportation, single vehicles only
- Maintain 6-foot work distance
- Technician work remotely
- Disinfection of vehicles and equipment with each use
- Monitoring and implementing key CDC and government guidelines
- Gloves and face coverings as required

CorrTech can provide field services while avoiding contact with clients and the public. CorrTech's ROV systems, which we have been upgrading for decades, are able to safely perform inspections and cleanings for our clients. All equipment is disinfected utilizing AWWA disinfection Method 2 before and after each use.

CorrTech is prepared and operational for our clients needs— NOW, as well as into the future.
